

**Declaration of compliance for repeated uses with food for the material TM370 NATUREL, TM380 NATUREL and TM390 NATUREL**

We, the undersigned EXSTO, certify that the **TM370 NATURAL, TM380 NATURAL and TM390 NATURAL** polyurethane material complies with the following US **FDA** regulations:

**CFR 21, part. 177.2600: Rubber articles intended for repeated use.**

For repeated contacts with dry, moist or fatty foods and for temperatures below 70°C.

The raw materials use in the composition of the **TM370 NATURAL, TM380 NATURAL and TM390 NATURAL** polyurethane elastomers are listed in the above regulation

In accordance with the paragraph g) of the above regulation, and good manufacturing practice, this declaration is only valid for finished polyurethane articles that have been thoroughly cleansed prior to their first use in contact with food.

You are further reminded that:

It is the responsibility of the end user to confirm full compliance with current regulations relating to the specific application of the product in question.

The information supplied in this document:

- Relate exclusively to the listed products in their natural version, with neither coloring nor functional additive.
- Are given in good faith on the basis of information provided by our raw materials suppliers on the date of issue.
- Are supplemented by migration tests carried out by an independent laboratory.
- Are based on our proper interpretation of regulations.

In addition we recommend that you contact us periodically to confirm the status of our products.
